

**TYPHOON WIZARD GPS FLIGHT CONTROLLER**

The Wizard is a mini GPS tracking device that gives you full – once handed – flight control over the TYPHOON aircraft. Its small design and innovative features make it possible to experience more fun and create new possibilities to capture amazing photographs and video footage for a variety of uses. Features such as „Follow Me“ and „Watch Me“ ensure that you are in frame in every shot. The Point-To-Fly function allows you to point and click to reposition your TYPHOON in a very intuitive way. The Wizard gives you an ease of operation you've been looking for in an aerial photography and videography solution.

**WATERPROOF CARRYING STRAP**

The TYPHOON Wizard GPS flight controller comes complete with a waterproof carrying strap that makes it easy to carry the Wizard in action filled activities when there is no pocket around.
